Re: **Spring 2022 Ten-day Census – Official Enrollment Data**

Enclosed (attached) are official spring enrollment data as of the ten-day census. Below are highlights.

Enrollment Trends

- UIC's total spring 2022 enrollment is 31,643, up by 0.7% (+211 students) from the spring 2021 enrollment of 31,432.
- Historically, total spring enrollment is lower than total fall enrollment, and the difference in spring 2022 enrollments (31,643) as compared to fall 2021 (34,199) is -7.5% (-2,556). The fall to spring total enrollment percentage difference has ranged from -4.4% to -7.5% over the last thirteen years and the enrollment count difference has ranged from -1,170 to -2,556.
 - This spring attrition is the highest number experienced. There are many student flow factors influencing the pattern of lower spring enrollments compared to fall. Some of those factors are seen in the trends by student level and student type, as well as the trends in students' graduating and student attrition/retention.
- Compared to last spring by student level, undergraduate enrollments are relatively flat, up 0.1% (+20), graduate enrollments are up 1.6% (+117), and professional school enrollments are up 1.8% (+74).
- The overall annual increase in spring enrollments (spring to spring) is similar to the pattern in the fall (fall to fall), with enrollments up 2.0% in fall 2021 and up 0.7% in spring 2022.
- The annual increase in undergraduate enrollments was lower in the spring compared to the fall (up 1.6% in fall 2021 and up 0.1% in spring 2022).
- Graduate enrollments are up 1.6% this spring compared to an increase of 4.7% in the fall. This difference was partly driven by a decrease of 28.4% (-157) in first-time graduate student this spring as compared to an increase of 24.7% (+496) in the fall.

- Professional school enrollments are up 1.8% this spring, compared to the 0.6% decrease in fall 2021.
- For undergraduate enrollments, compared to last spring by student type, continuing student enrollments are down 0.5% (-90), first-time first-year enrollments are up 31.7% (+26), and new first-time transfer enrollments are down -1.7% (-11).
- There are 1,060 UIC Global students enrolled in spring 2022, and there are 58 UIC Global students among the 108 new first-time first-years this spring. This is an increase of five students compared to UIC Global students enrolled in spring 2021 (1,055), and an increase of 26 new first-time first-years (32 in spring 2021). There are 237 UIC Global graduate students in spring 2022, an increase of 134 students compared to spring 2021 (103).
- Enrollments by college are included in the tables. This includes separate tables of undergraduate, graduate and professional students by student type.

Degrees Conferred in December

- A total of 2,101 students graduated in December 2021, of which 1,456 were undergraduates and 645 were graduate and professional students. The total number of December graduates continues to rise, from 2,084 in December 2020 and 2,052 in December 2019. The number of undergraduates graduating also continues to rise, from 1,344 in December 2020 and 1,291 in December 2019. In contrast, the number of graduate and professional students graduating is declining, down from 740 in December 2020 and 759 in December 2019.

Undergraduate Retention Fall to Spring

- Of the Of the 4,024 new first-time full-time first-years in fall 2021 a total of 3,566 are enrolled this spring, for a retention rate of 88.6%. In comparison, the retention rate from fall 2020 to spring 2021 was 89.9% and the retention rate from fall 2019 to spring 2020 was 91.8%. The highest fall to spring retention rate in recent years was for the fall 2014 new first-time full-time first-years, with a spring retention rate of 92.5%.
