Re: Fall 2023 Ten-day Census – Official Enrollment Data

Enclosed are UIC's official fall enrollment data as of the tenth-day census. Total enrollment decreased from 33,747 (2022) to 33,522 (2023), a decrease of 0.7% or 225 headcount.

Undergraduate enrollment increased from 21,807 (2022) to 22,107 (2023), an increase of 1.4% or 300 headcount.

- The number of first-year undergraduates increased by 9.5% or 403 headcount, from 4,244 (2022) to 4,647 (2023).
- Continuing undergraduates decreased by 0.7% or 110 headcount, from 15,012 (2022) to 14,902 (2023).
- The number of new transfers decreased by 3.3% or 69 headcount, from 2,110 (2022) to 2,041 (2023). It is the seventh consecutive year with greater than 2,000 new transfer students.
- First time transfers experienced a moderate spike in the first year of the pandemic from 2,069 (2019) to 2,319 (2020), increasing by 250 headcount or 12.1%. In the same year new first-year undergraduates experienced a significant decline from 4,407 to 3,541 or 866 headcount – a decrease of 19.7%. This combination of a temporary decrease in first year undergraduates and increase in new transfer students is a contributing factor in the current decline of the continuing undergraduate population. This pattern will likely resolve as these cohorts complete.

Graduate student enrollment decreased from 7,798 (2022) to 7,315 (2023), a decrease of 6.2% or 483 headcount. First time graduates decreased from 2,084 (2022) to 2,067 (2023), a decrease of 0.8% or 17 headcount. Continuing graduate students decreased from 5,399 (2022) to 4,940 (2023) a decrease of 8.5% or 459 headcount. The pandemic had a significant impact on graduate enrollments. In the first year of the pandemic new graduates decreased by 223 headcount as students opted to defer their admission. This subsequently contributed to a spike in first time graduates in 2021, with an increase of 494 headcount or a 24.6% increase. The decrease in the continuing graduate population tracks with the short-term growth in first time graduates.

Professional student enrollment declined, from 4,142 (2022) to 4,100 (2023), a decrease of 1.0% or 42 headcount.

Total international student enrollment decreased by 1.6% or 67 headcount, from 4,263 (2022) to 4,196 (2023). Graduate students saw the largest decrease by 147 headcount which is reflective of the general trend at that level. Undergraduate students increased by 70 headcount, and professional international students were essentially flat with an increase of 10 headcount.

Enrollment in UIC fully online programs increased from 1,434 (2022) to 1,488 (2023), an increase of 3.8% or 54 headcount.

Table 1 shows trends in UIC enrollments by student level. Table 2 has enrollment trends by student level by college. Table 3 shows race and ethnicity for the total campus. Table 4 shows undergraduate student enrollments by race and ethnicity. Tables 5 and 6 show graduate and professional students by race and ethnicity. Table 7 has that data for new first-years and table 8 includes new transfer students. Tables 9 summarizes new and continuing students by student types and table 10 does the same by college. Table 11 shows online programs only by college and student level, and Table 12 shows international student headcount by student level and college. Table 13 provide additional details for all students by level; Table 14 does the same for entering first-year and new transfer students.

The on-line census dashboard on the OIR website (<http://www.oir.uic.edu/>) will be updated within one business day of the official press release as coordinated by the Office of the Vice Chancellor for Strategic Marketing and Communications. The Office of Institutional Research will provide a detailed enrollment presentation to the Dean's Council at the October meeting. Please do not hesitate to contact me with any questions or requests for additional information.
