Re: Spring 2020 Ten-day Census - Official Enrollment Data

Enclosed (attached) are official spring enrollment data as of the ten-day census. Below are a few highlights from the spring enrollment data.

Enrollment Trends

- UIC's total spring 2020 enrollment is 31,216, up by 5.5% (+1,620 students) from the spring 2019 enrollment of 29,596. This includes UIC John Marshall Law School (JMLS) spring 2020 enrollment of 1,013. The year-to-year spring comparison without JMLS is a gain of 607 students or 2.1%.
- Although historically total spring enrollment is lower than total fall enrollment, the change from Fall 2019 to Spring 2020 is a loss of 6.5%. UIC enrolled 2,174 fewer students in spring 2020 (31,216) as compared to fall 2019 (33,390). Over the last decade, this percentage difference has ranged from -4.4% to -6.8% and the enrollment count difference has ranged from -1,170 to -2,174. There are many student flow factors influencing this pattern of lower spring enrollments compared to fall, the majority of which are graduation and non-retention due to academic standing and financial factors, offset by new first time students.
- A total of 2,052 students graduated in December 2019 as compared to 2013 in December 2018: 1,291 were undergraduates and 759 were graduate or professional students. The number of undergraduates graduating is slightly higher than the 1,247 that graduated in December 2018.
- Of the 985 UIC Global students enrolled in spring 2020, 28 are included in the total of 84 new first-time freshmen this spring. This is an increase of 266 UIC Global students when compared to spring 2019 (719).
- Compared to last spring by student level, undergraduate enrollments are up 4.2% (+817), graduate enrollments are down -2% (-140), and professional school enrollments are up 29.6% (+943) due to the addition of UIC JMLS. This overall pattern in spring enrollments is similar to the pattern of enrollments this past fall, with enrollment growth driven by both undergraduate enrollment increases and professional school enrollments due to the addition of UIC JMLS.

- For undergraduate enrollments, compared to last spring by student type, continuing student enrollments are up 4.5% (+813), first-time full-time freshmen enrollments are up 6.3% (+5), and new transfer-in undergraduates are down slightly, or -0.7% (-5).

Undergraduate Retention

- Of the 4,381 new first-time full-time freshmen in fall 2019 a total of 4,020 are enrolled this spring, for a retention rate of 91.8%. In comparison, the retention rate from fall 2018 to spring 2019 was slightly lower, or 89.9%. The retention rate from fall 2017 to spring 2018 was 90.7% and the retention rate from fall 2016 to spring 2017 was 90.3%. The highest fall to spring retention rate in recent years was from fall 2014 to spring 2015 when new first-time full-time freshmen were retained at a rate of 92.5%.

Please do not hesitate to contact OIR with any questions or requests for additional information. Thank you.
